Angul, Bhubaneswar, Odisha - 759125

OBJECTIVE

To excel as a software developer by building impactful web applications, leveraging expertise in full-stack development, REST APIs, database management, and system design. Seeking opportunities to contribute to innovative projects while enhancing problem-solving, cloud deployment, and scalable software engineering skills.

EDUCATION

Gita Autonomous College   Bhubaneswar, Odisha, India
Master of Computer Applications (MCA) - CGPA: 8.5/10   *Expected 2026*

TECHNICAL SKILLS

Frontend: React, JavaScript, TypeScript, HTML5, CSS3, Next.js, Tailwind CSS
Backend: Node.js, Express, MongoDB, Mongoose
APIs: REST APIs, JSON handling, Authentication systems, JWT
Tools: Git, VS Code, Postman, Vercel
Core: Agile Development, System Design, Cloud Deployment, Scalable Architecture

TECHNICAL PROJECTS

Resumix - PDF Resume to Portfolio Website Converter | *Next.js, TypeScript, MongoDB, Tailwind CSS*
- Built a full-stack portfolio builder that transforms PDF resumes into responsive, shareable websites with advanced PDF parsing and data extraction capabilities, serving 10+ active users.
- Implemented 5+ premium themes with live preview functionality, dark mode support, and a WYSIWYG visual editor for real-time content customization.
- Developed custom PDF parsing logic using pdf2json to extract structured data including experience, skills, projects, and contact information from uploaded documents.
- Deployed on Vercel with MongoDB Atlas integration for scalable data storage and fast global content delivery.
- GitHub: github.com/chinmayjjg/Resumix | Demo: resumix-six.vercel.app

Second Brain - Knowledge Management System | *React, Node.js, MongoDB, TypeScript*
- Developed a full-stack personal knowledge app with React, Node.js, and MongoDB in a TypeScript monorepo architecture, actively used by 20+ real users for organizing digital knowledge.
- Implemented JWT authentication, multiple collections (brains), auto URL metadata extraction, and full-text search functionality.
- Built tagging system and public sharing feature allowing users to make knowledge bases accessible via unique URLs.
- GitHub: github.com/chinmayjjg/second-brain | Demo: second-brain-client-7tbj.vercel.app

DevLink - Developer Linktree + Resume API | *Node.js, Express, MongoDB*
- Built a secure backend with Node.js, Express, and MongoDB allowing developers to manage links and resumes like Linktree.
- Implemented JWT authentication and RESTful APIs for scalable portfolio management with role-based access control.
- GitHub: github.com/chinmayjjg/devlink

KEY ACHIEVEMENTS

Successfully deployed multiple full-stack applications independently with production-ready features and scalability.

Built and maintained projects integrating authentication, real-time features, advanced PDF parsing, and AI-based automation.

Hands-on experience with deployment platforms like Vercel, MongoDB Atlas, and modern DevOps practices.
